LENS SEGMENTATION

PHOTOCHROMIC

ADAPTATION IS KEY WITH THE HIGHEST PERFORMANCE LENS ON THE MARKET

Searching for a competitive advantage, superior protection, or an extraordinary visual experience? We thought so. That's why we created Phantom, Bollé's first photochromic lens with phenomenal optical clarity.

HIGH CONTRAST

EXPERIENCE THE POWER OF COLOUR WITH AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colours like never before, you need to test colours like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million colour enhancement possibilities. In the end, only one formula provided an incomparable colour experience and it's so unique, it is patented. It's called Volt and it now establishes a whole new standard for high contrast lenses.

SUPERIOR LIGHT FILTER

ESSENTIAL

EXCELLENT VISIBILITY WITH

A standard polycarbonate lens, for excellent visibility and protection.

Available in photochromic option

Block light reflections for even more eye comfort

NXT MATERIAL (OPTICAL CLARITY, LIGHTNESS, RESISTANCE)/ HIGH CONSTRAST FILTER

REVOLUTIONARY COLOUR ENHANCEMENT

HIGH CONTRAST OF 30% WITH POLARIZED OPTION

PERFORMANCE MINERAL LENS FOR HIGH MOUNTAINS

SUPERIOR LIGHT FILTER

RECYCLED POLYCARBONATE WITH POLARIZED & PHOTOCHROMIC OPTION

VLLT

SOLPCE**4**

ADAPTATION IS KEY

A true reference in the world of eve protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction mining or pharmaceutical Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With **Phantom**, Bollé brings this expertise to everyone. A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the

LIGHTWEIGHT

NXT material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

AVAILABLE IN **PRESCRIPTION**

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

RESISTANCE

NXT lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT[®] is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous highvelocity impact tests.

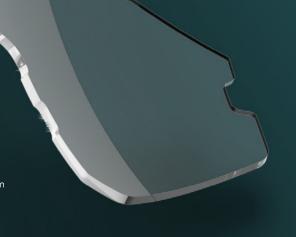

PHOTOCHROMIC PERFORMANCE

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.0 to cat.3. Enhanced vision whatever the conditions.

HIGH CONTRAST Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

OPTICAL HIGH IMPACT CLARITY

Made with NXT material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

FRAME **TECHNOLOGY**

Wearing Bollé's ultimate lenses is key to enhancing your vision of the world, yet it is not enough. At Bollé we give extra attention to details and technology while creating our frames, in order to ensure you get the most comfortable and reliable eyewear for your active life.

(ADJUSTABILITY + FIT + GRIP)

LIGHTWEIGHT

PERFECT COMFORT

For a pro cyclist, having the strap of your helmet going over the temple of your sunglasses is a real fashion faux-pas. That is why we created that distinctive curved design on our sunglasses temples to make sure that mistake never happens. In addition, it loosens the strain in the temple making it more flexible at the rear and providing better comfort and stability while keeping it steady on your face.

SIDE-SHIELDS

For high-altitude adventures, our mountain frames come with side-shields for the ultimate solar protection.

than 20% recycled or bio-based materials (percentage in weight)

ADJUSTABLE NOSE PIECE

The shape and angle of the multi-plane nose piece can be adjusted to accommodate any nose bridge for a truly custom fit. The hypoallergenic and durable nose piece can be tailored for a custom fit, giving you additional control and comfort.

INTERCHANGEABLE LENSES

Bollé helps you stay on top of your game with this interchangeable lens system. By giving you the flexibility to match the lens to the condition, this system ensures optimum performance for any condition.

Product made of at least 20% recycled or bio-based materials (percentage in weight)

WATER SPORTS TECHNOLOGY

FII-TEC TEMPLE

Bollé developped exclusive self-adaptive temples with 3-axis rotation to provide perfect fit no matter the intensity of the action.

Available on the Windchaser & the NEW multi-sports Victus Pro

FIN SHIELD TECHNOLOGY

Signature of the water sports family, the rubber fins offers maximum coverage, even on the sides.

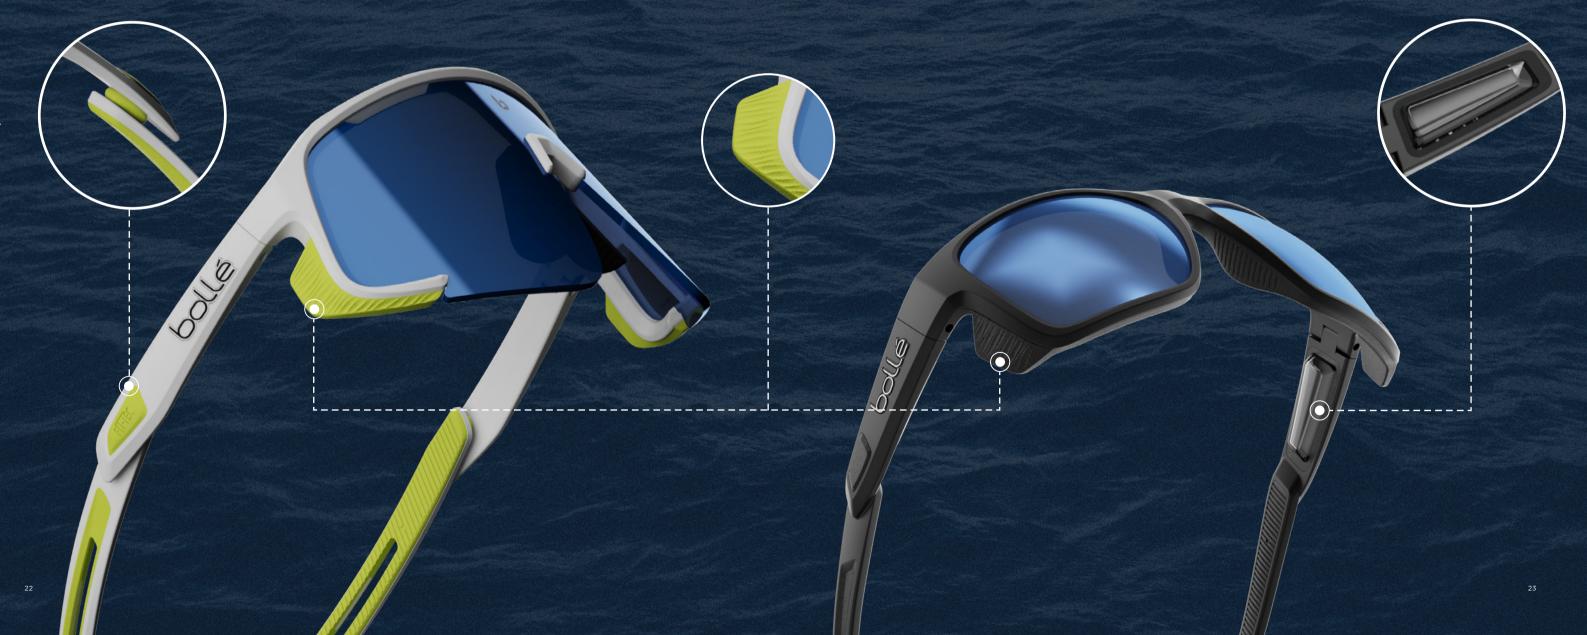

Available on the Airfin, Airdrift and Windchaser

AIR FLOAT TECHNOLOGY

Combined with a light and floatable material, the air cap allows the frame to float horizontally, making it easy to find your sunglasses in the water.

Available on the Airfin and Airdrift

CORD MOUNTAIN FAMILY / BS541001-P - Black / Pink Red

DISCOVER THE RANGE VIDEO

Elegant and refined, the ASCENDER is a mix between performance and fashion style. With its flat pantos shape and removable side shield, this base 6 model is as comfortable on the summit as it is in the city. Comfort, fit, and stability are ensured thanks to the Thermogrip® rubber on temple tips and on its adjustable 3-position nose pads. Removable side shields guarantee maximum light protection. The ASCENDER leaves nothing to chance with its snap hinge, a hole for a cord included with the frame and its rubber front clip. Available with our best lenses for high-altitude, mountain specific and photochromic Phantom Black Gun (VLT 18-5%) and Solace 4, our mineral lens (VLT 5.5%).

New addition to the Bollé's sports lifestyle collection, the ARCADIA is a square navigator frame with a mountain inspiration. With its retro and oversized look, the ARCADIA offers a refined and elegant design for a bold and confident style. True to the brand's sports DNA, this model is also equipped with Thermogrip® temple tips and nose pads along with snap hinges. The metal top bar and the integrated side shields with perforated pattern give a nice touch to the frame showing the importance given to every detail. Also a part of our React for Good campaign, the ARCADIA is made of 45% bio-based material. Available with Volt+, Bollé's revolutionary high contrast and polarized lens.

Latest addition to the Bollé's sports lifestyle collection, the ASTERIA is a cat-eye frame for women inspired by the mountain environment, just like the ARCADIA & EUPHORIA. With a sophisticated and trendy style, these sunglasses offer elegance and confidence. True to the brand's sports DNA, this model is also equipped with Thermogrip* temple tips and nose pads along with snap hinges. The metal top bar and the integrated side shields with perforated pattern give a nice touch to the frame showing the importance given to every detail. Also a part of our React for Good campaign, the ASTERIA is made of 45% bio-based material. Available with Volt+, Bolle's revolutionary high contrast and polarized lens.
