ELEMENTS

NANO ELEMENTS

the perfect fusion of design and nature.

In the new **Nano Elements** collection, we have channeled the essence of the four fundamental elements of nature: Earth, Fire, Air, and Water, whose beauty and diversity have inspired us to create new models **NANOmetal**.

TERRA, IGNIS, AQUA and AER. YOU'RE GOING TO LOVE THEM!

Frames that merge innovation and style to create a unique experience with designs, finishes, and colors that stand out.

DESIGN

Light metal frames with a flat section, featuring a slim profile that imparts a timeless style in satin finishes and colors reflecting the harmony of nature.

FIT AND COMFORT

Bridge made of Elaxtitan™, a patented material that achieves unique elasticity and resistance characteristics. And to adapt to all facial morphologies, its temples are adjustable!
