# BlueBlock™ CLIP

## NANO BLUE BLOCK CLIP FIGHT BLUE LIGHT IN JUST ONE “CLIP”!

Children spend most of their leisure time or study in front of screens of electronic devices, and it is of vital importance to protect them from the Blue Light to avoid damage to their visual health. Overexposure also increases the risk of Age-Associated Macular Degeneration (AMD), as their visual system is in development.

Some of the harmful consequences that are attributed to this light are:

- ALTERATION OF THE SLEEP
- TIRED SIGHT
- RED EYES
- STRESS OR VISUAL FATIGUE
- CYCLE HEADACHE
- LOWER SCHOOL PERFORMANCE

In Nano Vista we wanted to go a step further and develop the **Blue Block clips**. In just one clip, they protect children from the harmful rays of the Blue Light without having to change frames or remove their prescription glasses.

**The Blue Block\* clips block 75% of BLUE LIGHT, the highest percentage on the market.**

REDUCES ELECTROMAGNETIC RADIATION AVOIDING THE INCREASE OF EYE TEMPERATURE THANKS TO ITS EMI TREATMENT

PREVENTS FLASHES AND IMPROVES THE VISUAL COMFORT THANKS TO ITS AR TREATMENT

NEUTRALIZE UP TO 30 TIMES MORE BLUE LIGHT THAN MOST OF THE GLASSES ON THE MARKET

\*The solar clip / blue block is not adhere to the same flexibility and resistance characteristics as the frame.

**ADD A BLUE BLOCK CLIP TO ALL OUR SOLAR CLIP GLASSES**  
 - Look for the references on the model pages -
